PROCEDURE

Activating your software with an activation code

You can find your code on the back of the "Activation Card".

Once the software installation is complete, open cardPresso and follow these steps:

- 1 In CP menu choose "**cardPresso license**"
- 2 Select "**Activation Code**"
- 3 Insert your activation code and **activate** your license

FAQs

1 activation code corresponds to 1 user.

If you want to use it on another computer, you need first to deactivate the license on the 1st computer and then activate it on a 2nd computer.

For any change on the license for activation or deactivation, an internet connection is required.

There is no change on the upgrade coupons issue procedure. So you can apply the same upgrades coupons on licenses activated with Activation Codes or USB dongles.
