

WHY IS CARDPRESSO SUCH A GOOD BUSINESS OPPORTUNITY?

ID CARD SOFTWARE FOR EVERY PRINTER

XXS

XS

XM

XL

XXL

SOFTWARE BUSINESS INCREASES YOUR PRINTER MARGIN UP TO 10%

With a high rate of upgrades, cardPresso brings a relevant additional margin to your solution.

CROSS-SELLING FACILITATOR

For instance, a customer acquired XL edition, because he was using Oracle database. Since he has UV functionality available, this is a good opportunity to upgrade his cards security level using UV ribbon.

TRADE-IN PROGRAM

Offer an updated solution, at a very competitive price to your customers.

Optimize your technical resources by standardizing your software offer to support a single product.

QUALIFIED TECHNICAL SUPPORT

Empower your team with technical support training. Get efficient technical support through email, Skype and phone.

PROVEN EXPERTISE

cardPresso is the ID card software solution chosen by more than 180.000 users. Offer a reliable, yet updated, solution to your customers.

cardPresso ID CARD SOFTWARE

5 DIFFERENT EDITIONS

BASIC DESIGN AND PRINT

cardPresso's XXS edition is the entry-level edition and provides you the basic design and printing tools to create and print good looking ID Cards.

SIMPLE DB USAGE

Small Companies, occasional card printing.

cardPresso's XS edition is specifically tailored to meet the needs of small businesses with key features that save you time and make printing ID cards a snap!

ENROLLMENT ORIENTED

Medium companies, local schools, photos usage, regular printing.

cardPresso's XM edition is full of time saving features specifically tailored to meet the needs of medium sized companies and schools that regularly print photo ID cards.

SECURITY, AUTOMATED PROCESSES

Large companies, universities, hospitals, security requirements, activities monitoring, mass production.

cardPresso's XL edition is the best choice for companies focused on security and efficiency with top of the line features like multi-layout support, UV printing, user permission management and encoding.

HIGH SECURITY, MULTI-SITE

Corporate, high security, government, banking solutions and networking.

cardPresso's XXL is the best choice for companies with high security level encoding, multi-site working stations and remote printing needs.
